Notes: Enrollments are duplicated, i.e., students are counted for each Course Reference Number (CRN) in which they are registered.  
 Example A: A student in two HST courses, whether in the same term or different terms, is counted twice.  
 Example B: A student in a CH course with separate lecture, recitation, and laboratory CRNs is counted three times.  
 SFTE stands for Student Full-Time Equivalent and is calculated on the basis of 510 student-hours per SFTE  
 The format, e.g., lecture vs. lab, does not matter; only the contact hours matter.  
 SFTE is impacted by the length of the term with Fall at 12 weeks and Winter, Spring, and Summer at 11 weeks.  
 Example: (30 students x 3 hours/week x 11 weeks) / (510 student-hours / SFTE) = 1.94 SFTE  
 IFTE stands for Instructor Full-Time Equivalent and is calculated on the basis of "Teaching Load Factor" as defined in Article 6 of the Faculty/Academic Professional Agreement  
 The format, i.e., lecture vs. lab, does matter.  
 Example: MTH 251 meets for 3 hours of lecture and 3 hour of lab per week; IFTE = (3 x 0.068) + (3 x 0.046) = 0.342 for that course.  
 Total IFTE is the sum of all full-time and part-time assignments  
 SFTE/Total IFTE is the ratio of Student FTE to Total Instructor FTE and is a measure of efficiency that includes all instruction.  
 Full-time IFTE is the sum of full-time assignments only; part-time, overload, and no-pay assignments are excluded.  
 SFTE/Full-time IFTE is the ratio of Student FTE to Full-time Instructor FTE and is a measure of how Full-time Instructor resources are distributed across the District.
