Favorites

For the Favorites assignment, choose one website to share with the class in 1-3 minutes, highlighting what you find inspiring, engaging, or curious about it. As we design for the internet, let's explore what resonates with us and pay attention to elements that are familiar and recognizable. Each class, 2-3 students will have the opportunity to share.

(You can choose any website except Amazon or Netflix, keeping content PG and relevant to our class.)

If you cannot determine a favorite and are new to tracking inspiration, you are welcome to select one from below or any website mentioned in class time for your assignment.
