How to add Products to a Department's Inventory in MSDSonline

Three scenarios

- A. The product is already in the PCC inventory (company list) and needs to be added to a specific department's inventory.
- B. The product is not currently in the PCC inventory and needs to be added to both the PCC **and** department's inventory from the MSDSonline master database.
- C. The product can't be found in MSDSonline at all and you need to request that it be added. You can upload an electronic file of the SDS during the online request.

Scenario A. Add a product to a Department's inventory

1. On the PCC intranet, click on Safety Data Sheet (SDS) or type in web address
